DEFINING PSYCHOLOGY

- Scientific study of mind and behavior. →
- Psychologists are actively involved in studying and understanding mental processes, brain functions, and behavior.
- "Embraces all aspects of the human experience, from the functions of the brain to the actions of nations, from child development to care for the aged." – APA
- The work of a psychologist can range from counseling individuals with anxiety to advising companies on how to build better teams.

Women- Household- Environment
