MSU-IIT co-hosts the CIMPA School: Current Trends in Algebra

MSU-IIT partners with the Centre International de Mathématiques Pures et Appliquées (CIMPA) to champion initiatives that not only advance mathematical understanding but also contribute to the broader goals of Filipino communities and nations.

CIMPA School started today with an Opening Program at the Negros Oriental State University (NORSU) in Dumaguete City. Chancellor Alizedney M. Ditucalan expressed his appreciation to all the participants and organizers. "The knowledge exchanged and collaborations formed during this event have the power to influence the trajectory of mathematical research and education. We recognize that CIMPA is not merely a facilitator of current trends in algebra but a catalyst for shaping the landscape of mathematical exploration, influencing the future in profound ways," he said.

Over the next two weeks, NORSU will serve as a collaborative space where discussions on the current trends in Algebra will take place through course lectures, research talks, and poster presentations.
