Dear Vice Chancellor Resurreccion:

In view of the Quarterly Bar 1 report to the Department of Budget and Management, AEFC is pleased to submit its first quarter alumni tracing for the graduates two years prior to the current year (2022).

Overall, the consolidated report indicates that of the 38 graduates of 2022, fifteen (39.5%) are employed, three (7.9%) are unemployed, and eighteen (47.4%) are yet to be traced. This goes to show that our 2nd quarter target which is 18% is met. Below is the summary of the tracing.

## 1Q BAR 1 ALUMNI TRACING REPORT

For a better visualization of the alumni tracing data, AEFC employs pie charts to depict the number of Employed, Pursuing Further Studies, Unemployed and Untraced alumni. The first pie chart indicates the institute-wide status of the tracing while the succeeding charts show the standing of the colleges; however, certain colleges lack a pie chart since they have no graduates.

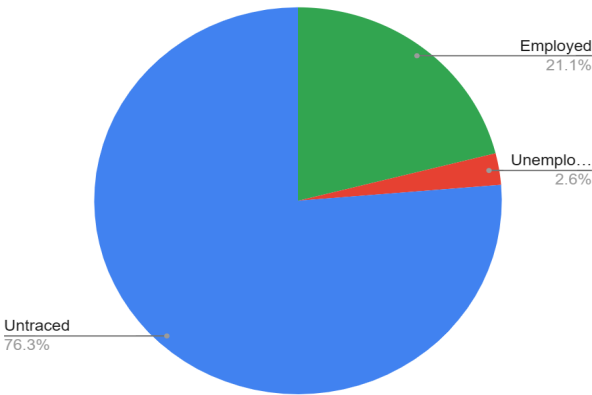

As pointed out earlier, the consolidated report indicates **21.1% (8)** of the 2022 graduates are already **“Employed”**; **2.6% (1)** are confirmed **Unemployed**; while **76.3% (29)** remain **Untraced**.

AEFC would like to commend CCS for being able to trace 100% of their graduates. We also commend CED for being able to meet its 1st Quarter target. However, COE needs to intensify its tracing as it is not able to meet its 1st Quarter target. In fact the 11% percent reflected in this report as traced COE graduates were done by the center.
