Mindanao State University - Iligan Institute of Technology

February 27, 2024 · 🌐

...

It's a week of elevated knowledge and innovation!

Mark your calendars as Research Week 2024 finally kicks off from March 4-8 with a plethora of activities that provide opportunities for faculty, staff, and students to enrich their exposure to research. Some of the upcoming events to anticipate include policy orientation, proposal writing workshops, research colloquia, patent awareness sessions, article writing workshops, research exhibits, and recognition of outstanding researchers from 2023.

This week-long celebration is MSU-IIT's way of promoting the University's scholarly undertakings and fortifying its commitment to championing the culture of research and innovation. This year, the University features a keynote speaker from UP Manila, Dr. Leslie Michelle M. Dalmacio who specializes in virology, the human microbiome, probiotics, and immunodiagnostics.

Join us as we set out on a progressive journey in the pursuit of excellence!
